Montrose: Issue: Air samples

ARO065

not soil samples

(b) '74 air work

Tieing locations
to data

Protocol

prevailing wind

downwind sampling
should be statistically
significant.(1) ^a Get ^{new} air samples(2) If only source,
soil OK.

Ag & mosquito

(3) RI - will look
at these

* call Ed Bonnett @ AQMD re any other air data (74 data is weak; no protocol)

* send RIC from mosquito abatement district

document via our

R.O.C.

we supply more offsite sampling data that shows release from Montrose
opposite 4 offsite samples @ 2 depths - near site)
further offsite, 2 mi away, the control sample) not a strong enough case
- we're these the
homeowners yards?* dont send info by mail - 1st discuss w/
Steve Chang MTCB + Parrish.
